EXECUTIVE SUMMARY:

The secondary road department has received a quote for ESRI software to allow tracking and analysis of county equipment.

BACKGROUND:

Since 2013 the county secondary road department has utilized GPS tracking of its motor graders, trucks and mowers. FEMA now requires counties now to prove they are maintaining their road systems prior to being eligible for disaster recovery funds. The new system will allow the county to provide reports to FEMA when the next disaster occurs based on the GPS monitoring.

FINANCIAL IMPACT:

This project is proposed to be paid for partially by funds awarded for Management Expenses by FEMA for 2019 flood work. The balance of the cost would be paid for with local secondary road funds.

IF THERE IS A CONTRACT INVOLVED IN THE AGENDA ITEM, HAS THE CONTRACT BEEN SUBMITTED AT LEAST ONE WEEK PRIOR AND ANSWERED WITH A REVIEW BY THE COUNTY ATTORNEY'S OFFICE?

Yes No

RECOMMENDATION:

The county utilizes ESRI software for its geographic information system. This software proposed builds on platforms already owned by the county and gives the county engineer additional capability to use GPS data collected from county vehicles. I recommend that the Board approve the quotation for GeoEvent Server from ESRI.

ACTION REQUIRED / PROPOSED MOTION:

Motion to approve the quotation for GeoEvent Server from ESRI.
