Subject: Jon Winkel Statement

Woodbury County Board of Supervisors

I am out of town or I would have attended in person.

First, as the Mayor of the second largest city in Woodbury County, I reviewed and vetted all options that were discussed for EMS solutions. I feel that the option chosen by the Board is the best and fairest in every aspect.

Second, as a Mayor, a life long resident, and a long time business person in Siouxland, I am disappointed in the Tax Research Conference for not taking the time to gather both sides of the issue before taking a position. The Tax Research Conference is a valuable member of the Siouxland area and actions like this will cause it to be more and more irrelevant and less valuable over time.
